BEAUTIFULLY BUILT

At Made, we believe that homes should be beautiful to live in. This is evident in our design and development of Crenelle: a boutique collection of three-bedroom residential retreats in the hidden heart of Neutral Bay. There are only eleven residences on offer, yet each one is generous in size and sophisticated in feel.

As both builders and developers, we are in a unique position to create incredible homes with no compromise on quality. We only work with partners who share our vision and elevated standards and collaborate with like-minded practices that are at the top of their fields.

The architecture and interiors of Crenelle Neutral Bay has been designed by our well-respected friends at SJB, with landscape design by Black Beetle. Together we will create and deliver an exceptional residence, loved by its inhabitants and befitting its secluded harbourside setting.

Made Property is a boutique property development and building firm, led by directors with over 80 years' combined experience in the property development and construction industry. Using the finest materials and the most efficient new technologies, we specialise in creating luxury residences that balance uncompromising quality with unrivalled liveability.

To ensure we deliver to the highest standard, we have the same trusted team of dedicated professionals on every job. This guarantees a consistent level of craftsmanship, particularly on bespoke projects that need that personal attention.

A small, tightly knit team, we value a personal touch. We are meticulous in detail and design, flexible in our approach, and intimately engaged with every project from beginning to end.

DARREN POWER
CONSTRUCTION DIRECTOR

89-90 NORTH STEYNE, MANLY. BUILT BY MADE PROPERTY.

“The whole process of buying off the plan can be complicated. But we bought within five days and went through the process of actually doing all the necessities. At the end of the day, Made made it simple.”

MIKE FROST
RESIDENT OF 89-90 NORTH STEYNE, MANLY

267 CLEVELAND STREET, REDFERN. BUILT BY MADE PROPERTY.

At SJB, we create amazing places. As leaders in the built environment, we are passionate about the possibilities of architecture, interiors, urban design and planning. As professionals, we understand the value of working with others to reveal opportunities and optimise design outcomes, and that includes collaboration with clients, communities and user stakeholders.

As experts in our fields, we provide design that is intelligent, feasible, robust, and fit for purpose, as well as life-enhancing. We build sustainability into our work and deliver urban and design solutions that emerge from the places they are located and the needs of people whom they serve.

“Each residence at Crenelle is its own grand family home: relaxing and comfortable, yet something to be proud of.”

ADAM HADDOW
DESIGN DIRECTOR

“Crenelle blurs the boundaries between indoors and out, creating a completely immersive experience with the existing tree canopy.”

ILIA KOKALEVSKI
DIRECTOR

Black Beetle is a landscape architectural practice focused on providing thoughtful, innovative design solutions that respond to the built form and neighbourhood setting. Founded by our two Directors, Giselle Barron and Ilia Kokalevski, we provide beautiful and timeless spaces that will create enjoyment for years to come.

From our Sydney office, Black Beetle’s creative team has local and international experience designing various commercial, residential and environmental landscapes. Our designs meld nature and architecture to create quality spaces that are inspirational, fresh, cost effective, practical, and that use sustainable design and management principles.
